**Webinar Report: Emergency Management in Case of Poisoning - Demonstration of CPR with Manikin**

**Date:** October 15, 2025

**Time:** 10:00 AM

**Venue:** Lecture Hall 3, Sree Raghavendra Ayurveda Medical College, Malladihalli, Chitradurga, Karnataka-577531

The **Department of Agadatantra** of Sree Raghavendra Ayurveda Medical College with the support of **Principal Dr Sripathi. E. Nagol** and Management organized a highly informative and practical webinar on "Emergency Management in Case of Poisoning-- Demonstration of CPR with manikin". The event was held on October 15, 2025, at 10:00 AM in Lecture Hall 3.

**Program Highlights:**

- 1. Invocation:** The program commenced with the recitation of the Dhanwanthari sloka by Deepika and Liktha, students of the 2nd professional BAMS.
- 2. Inauguration:** **Dr. Ramachandra R**, Professor and Head of the Department of Kayachikitsa, inaugurated the event by lighting the lamp. The faculty members paid homage to Poojya Raghavendra swamiji and Poojya Soordas swamiji through Pushparchana.
- 3. Welcome Speech:** Praveen, a student of the 2nd professional BAMS, delivered the welcome speech.
- 4. Comparing:** Prakruthi from the 2nd professional class skillfully anchored the event.

**Guest Speaker:**

**Dr. Krishna S. Nair**, Assistant Professor in the Department of Agadatantra at Maria Ayurveda College, Thuravattur, Tamil Nadu, is a dedicated and accomplished Ayurvedic physician and academician with over a decade of clinical expertise, 4 years of teaching experience, 3 years of research involvement in Agadatantra. She is experienced in conducting medico-legal consultations, empanelled as a committee member in reputed government forums (KSRTC), and actively engaged in training programs including Basic Life Support (BLS) sessions for government organizations.

**Session Details:**

The session was informative and practical-beneficial for students, interneers, and teaching staffs. Dr. Krishna demonstrated CPR with the help of two students using a manikin in different situations:

- CPR technique when only one rescuer is available
- CPR technique when two rescuers are available

And also showed videos of handling a collapsed person with CPR by using AED (Automated External Defibrillator). Students from the 2nd professional BAMS, 3rd professional BAMS, interneers, and teachers were actively participated in the question-answer session.

**Conclusion:**

**Vote of Thanks:** Deepika from the 2nd professional class delivered the vote of thanks.

The event concluded with the National Anthem.

**Outcome:**

The webinar provided valuable learning experiences for attendees, equipping them with practical skills for emergency management in case of poisoning. The hands-on CPR demonstration was particularly beneficial, allowing participants to gain experience in this life-saving technique.

**Thankyou**

Regards

**Dr. Priyanka. K.V**
